

# Ali Firas Mecheri

## Software Developer

@ firas.mech.1221@gmail.com    <https://www.linkedin.com/in/ali-firas-mecheri-33893a282>  
<https://myportfolio20251204222540-bffyb4hke6eeazhb.canadacentral-01.azurewebsites.net>    📍 Ottawa, Canada

### SUMMARY

Full-stack developer specializing in Node.js, AWS, and modern web technologies. Experienced building scalable backend services and cloud-based applications. Strong communication skills with hands-on project and internship experience in production environments.

### EDUCATION

#### Bachelor's in Computer Science

[University of Ammar Theliji](#)    📅 09/2019 - 05/2022    📍 Laghouat, Algeria

#### Advanced Diploma in Computer Engineering

[Algonquin College](#)    📅 01/2023 - 08/2025    📍 Ottawa, Canada

### EXPERIENCE

#### Software Engineer Intern – (Remote)

[Amazon](#)    📅 06/2024 - 09/2024    📍 Ottawa, Canada

Assisted in the design and development of software applications

- Designed and shipped a real-time driver engagement feature using Node.js, TypeScript, and AWS (Lambda, DynamoDB, API Gateway), increasing customer engagement by 15%.
- Improved distributed event workflows by refactoring async logic, reducing latency and processing time across high-traffic services.
- Built and deployed backend APIs following scalable microservice patterns and production-grade cloud architecture.

#### Network Infrastructure Co-op Technician

[Algérie Télécom](#)    📅 05/2021 - 08/2021    📍 Laghouat, Algeria

Responsible for developing and implementing software applications

- Deployed secure LAN solutions for 12+ enterprise clients by configuring routers, switches, and optimizing network layouts.
- Troubleshoot connectivity issues and improved network stability through diagnostic tools and end-to-end testing.
- Implemented firewall and VLAN segmentation policies to protect sensitive client data and prevent unauthorized access.

### SKILLS

|              |            |         |     |      |
|--------------|------------|---------|-----|------|
| Java         | C#         | Python  | C++ | .NET |
| HTML         | JavaScript | Node.js |     |      |
| PostgreSQL   | MySQL      | AWS     |     |      |
| Google Cloud |            |         |     |      |

### STRENGTHS

- **Problem-Solving**  
Resolved complex software issues delivering a 40% reduction in long-standing unresolved problems.
- **Collaboration**  
Led a cross-functional team of three developers in the successful execution of a critical project on time.
- **Adaptability**  
Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules.
